

Remember to roll around in mud, climb trees, tell silly jokes and laugh lots and lots.....but when you are not doing any of those things, here are a few other ideas to keep you busy!

<p>Create a piece of 'wearable art' out of things in your recycling bin!</p>	<p>Design a poster to encourage others to 'REDUCE, REUSE, and RECYCLE'.</p>	<p>Make a pencil pot out of a tin can or the bottom of a plastic bottle. Decorate it to make it look fabulous!</p> <p>Be safe - ask an adult to put tape around the sharp edges of tin cans.</p>
<p>Go foraging in your garden and hedges. Make something out of blackberries and apples.....could it be a pie, a tart or some jam?</p>	<p>Help at home with the recycling.....count how many things you have in each recycling box.</p>	<p>Create a bird feeder!</p> 
<p>Make some ladybugs out of the bottom of plastic bottles.</p> 	<p>Do you have a lonely, lost sock? Make it happy and turn it into a sock puppet!</p> 	<p>Take a bag with you on a country walk and pick up any litter you see.</p>

If you don't fancy any of these ideas, surprise me with your own!

The last Thursday of every term is 'Home Learning Sharing Afternoon'! Take pictures, write it down or bring it in.....whichever way works for you!

Remember to read with your child as often as you can. Practising number bonds to 10 and 20 (Year 1) and your 2x, 5x, 10x (Year 2) all help support your child's learning.
